ARCHITECTURE + INTERIORS

Nine questions to ask your
architect and interior designer to
get the best result for your project

Why we made this guide

Embarking on a renovation or new build can be an exciting process. It's the chance to co-create the home of your dreams.

The first step is choosing a design team that values your input, is willing to work collaboratively, and that use their expertise to expand your vision and turn it into reality.

From our extensive combined experience as an architect/interior design practice, we have compiled nine questions to ask your shortlisted collaborators. The answers will help you to choose a team that makes for a hassle-free experience from beginning to end.

If you have any specific questions relating to Making Studio's process or your project, we welcome your enquiry.
